Home Inspector Study Course

Â
Â
Professional Home Inspection in Demand

According to the American Society of Home Inspectors organization, 77% of home sales in the

United
State today are inspected prior to purchase. As more Americans buy and sell homes, the need for qualifiedÂ professionals grows. An increasing number of states are just beginning to establish licensing requirements for inspectors, making now the perfect time to enter into this growing field.

Home Inspection Training Course Material

eLicense
School 's Home Inspector Education is a complete family of training materials developed by the nation's leading provider on Home Inspection: the American Society of Home Inspectors and Carson Dunlop & Associates. These elegantly presented materials are distributed by Dynasty School The Licensing Institute Education Provider.
Our online educational materials do what no other certification training program has done before: integrate proven education methods with solid home inspection principles. Superior quality training materials featuring a breadth and depth of content unsurpassed in the industry coupled with unparalleled study guides containing hundreds of photos and illustrations. The text materials are supplemented by videos which contain hundreds of real world inspection scenes, narrated by experienced professionals in the business. Using clear photographs and computer enhancement, the comprehensive 8 module system comes with two corresponding textbooks covering the following major topics: Air Conditioning & Heating, Exteriors, Insulation & Interiors, Electrical, Plumbing, Roofing and Communication and Professional Practice.Â
